

**Socialism is ...**

# **Socialism is ...**

- an intelligent design of a society.

# Socialism is ...

- an intelligent design of a society.
  - it incorporates a simplistic (naive) model of society in which determinism replaces freedom

# Socialism is ...

- an intelligent design of a society.
  - it incorporates a **simplistic** (naive) model of society in which determinism replaces freedom

# Socialism is ...

- an intelligent design of a society.
  - it incorporates a simplistic (naive) model of society in which determinism replaces freedom

# Socialism is ...

- an intelligent design of a society.
  - it incorporates a simplistic (naive) model of society in which determinism replaces freedom

# Socialism is ...

- an intelligent design of a society.
  - it incorporates a simplistic (naive) model of society in which determinism replaces freedom

# Socialism is ...

- an intelligent design of a society.
  - it incorporates a simplistic (naive) model of society in which determinism replaces freedom
  - it is social creationism

# Socialism is ...

- an intelligent design of a society.
- submission of the individual to the collective.

# Socialism is ...

- an intelligent design of a society.
- submission of the individual to the collective.
  - so, socialism is an ideology of submission

# Socialism is ...

- an intelligent design of a society.
- submission of the individual to the collective.
  - so, socialism is an ideology of submission

# Socialism is ...

- an intelligent design of a society.
- submission of the individual to the collective.
  - so, socialism is an ideology of submission.

# Socialism is ...

- an intelligent design of a society.
- submission of the individual to the collective.

# Socialism is ...

- an intelligent design of a society.
- submission of the individual to the collective.
- elimination of competition.

# Socialism is ...

- an intelligent design of a society.
- submission of the individual to the collective.
- elimination of competition,
  - comprehensive planning, leveling, and redistribution of wealth being forms of it.

# Socialism is ...

- an intelligent design of a society.
- submission of the individual to the collective.
- elimination of competition,
  - comprehensive planning, leveling, and redistribution of wealth being forms of it.

# Socialism is ...

- an intelligent design of a society.
- submission of the individual to the collective.
- elimination of competition,
  - comprehensive planning, leveling, and redistribution of wealth being forms of it.

# Socialism is ...

- an intelligent design of a society.
- submission of the individual to the collective.
- elimination of competition,
  - comprehensive planning, leveling, and redistribution of wealth being forms of it.

# Socialism is ...

- an intelligent design of a society.
- submission of the individual to the collective.
- elimination of competition,
  - political preferences dominate over reason and merit.

# Socialism is ...

- an intelligent design of a society.
- submission of the individual to the collective.
- elimination of competition,
  - **political** preferences dominate over reason and merit.

# Socialism is ...

- an intelligent design of a society.
- submission of the individual to the collective.
- elimination of competition.
- prone to emergence of dictatorships.

# **Socialism is ...**

- prone to emergence of dictatorships.

# Socialism is ...

- prone to emergence of dictatorships.

Imposition of socialism requires violations of individual rights. (For a “good cause”)

# Socialism is ...

- prone to emergence of dictatorships.

Imposition of socialism requires violations of individual rights. (For a “good cause”)

It also exempts socialist leaders from laws and accountability. (For a “good cause”)

# Socialism is ...

- prone to emergence of dictatorships.

Imposition of socialism requires violations of individual rights. (For a “good cause”)

It also exempts socialist leaders from laws and accountability. (For a “good cause”)

The above facilitate the same for a bad cause, and takeovers by opportunists.

# Socialism is ...

- prone to emergence of dictatorships.

Imposition of socialism requires violations of individual rights. (For a “good cause”)

It also exempts socialist leaders from laws and accountability. (For a “good cause”)

The above facilitate the same for a bad cause, and hostile takeovers.

Hence dictatorships inevitably follow.

# Socialism is ...

Imposition of socialism requires violations of individual rights. (For a “good cause”)

It also exempts socialist leaders from laws and accountability. (For a “good cause”)

The above facilitate the same for a bad cause, and hostile takeovers.

Hence dictatorships inevitably follow.

**Socialism demands ...**

# **Socialism demands ...**

- a faith in

# Socialism demands ...

- a faith in and an overriding commitment to

# Socialism demands ...

- a faith in and an overriding commitment to the ideology

# Socialism demands ...

- a faith in and an overriding commitment to the ideology despite the facts that may and do contradict it.

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
  - Political correctness:

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
  - **Political correctness:**  
“Comrade, your statement is **factually incorrect.**”

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
  - **Political correctness:**
    - “Comrade, your statement is **factually incorrect.**”
    - “Yes, but it is **politically correct.**”

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
- **social engineering**

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
- **social engineering** by those who gave themselves a mandate

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
- **social engineering** by those who gave themselves a mandate **to eliminate injustice**

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
- **social engineering** by those who gave themselves a mandate to eliminate injustice **and dispense happiness.**

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
- **social engineering** by those who gave themselves a mandate to eliminate injustice **and dispense happiness**.
  - somehow, engineering of the environment is bad

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
- **social engineering** by those who gave themselves a mandate to eliminate injustice **and dispense happiness**.
  - we must preserve it “as is” and return to “nature”

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
- **social engineering** by those who gave themselves a mandate to eliminate injustice **and dispense happiness**.
  - we must preserve it “as is” and return to “nature”, even if it is a desert

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
- **social engineering** by those who gave themselves a mandate to eliminate injustice **and dispense happiness**.
  - quite a naturalistic fallacy, isn't it?

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
- **social engineering** by those who gave themselves a mandate to eliminate injustice **and dispense happiness.**
  - **but engineering the society**

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
- **social engineering** by those who gave themselves a mandate to eliminate injustice **and dispense happiness**.
  - but engineering the society, or even the human nature

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
- **social engineering** by those who gave themselves a mandate to eliminate injustice **and dispense happiness**.
  - but engineering the society, or even the human nature is good

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
- **social engineering** by those who gave themselves a mandate to eliminate injustice **and dispense happiness**.
  - even though the society is the most complicated system on the planet

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
- **social engineering** by those who gave themselves a mandate to eliminate injustice **and dispense happiness.**

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
- **social engineering** by those who gave themselves a mandate to eliminate injustice and dispense happiness.
- **more socialism.**

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
- **social engineering** by those who gave themselves a mandate to eliminate injustice and dispense happiness.
- more socialism,
  - so according to Einstein's definition

# Socialism demands ...

- a faith in and an overriding commitment to **the ideology** despite the facts that may and do contradict it.
- **social engineering** by those who gave themselves a mandate to eliminate injustice and dispense happiness.
- more socialism,
  - it demands **insanity**.

**Socialism demands ...**

# Socialism demands ...

- The ideology is needed

# Socialism demands ...

- The ideology is needed because socialism attempts to go against the human nature.

# Socialism demands ...

- The ideology is needed because socialism attempts to go against the human nature.

# Socialism demands ...

- The ideology is needed because socialism attempts to go against the human nature.

Free individualist society does not need any ideology.

# Socialism demands ...

- The ideology is needed because socialism attempts to go against the human nature.

Free individualist society does not need any ideology.

# Socialism demands ...

# Social engineers ...

claim that they are capable of creation of something much more complex than a human being: a human society.

# Social engineers ...

claim that they are capable of creation of something much more complex than a human being: a human society.

They behave like amateurish inexperienced programmers who have no idea how difficult and tedious it is to produce an error-free software.

# Social engineers ...

claim that they are capable of creation of something much more complex than a human being: **a human society**.

They behave like amateurish inexperienced programmers who have no idea how difficult and tedious it is to produce an error-free software.

**So, they fail.**

# Havana, Cuba, 2016

# Social engineers ...

- insist that intelligent design of a human being is impossible (even by God).
- claim that they are capable of creation of something much more complex than a human being: a human society.
- brand anyone who questions

# Social engineers ...

- insist that intelligent design of a human being is impossible (even by God).
- claim that they are capable of creation of something much more complex than a human being: a human society.
- brand anyone who questions **their ability to design**

# Social engineers ...

- insist that intelligent design of a human being is impossible (even by God).
- claim that they are capable of creation of something much more complex than a human being: a human society.
- brand anyone who questions their ability to design a functional and sustainable society

# Social engineers ...

- insist that intelligent design of a human being is impossible (even by God).
- claim that they are capable of creation of something much more complex than a human being: a human society.
- brand anyone who questions their ability to design a functional and sustainable society **a menace to humanity.**

# **Socialist governments ...**

# **Socialist governments ...**

- are responsible for

# **Socialist governments ...**

- are responsible for more human suffering

# **Socialist governments ...**

- are responsible for more human suffering, oppression,

# **Socialist governments ...**

- are responsible for more human suffering, oppression, and servitude

# **Socialist governments ...**

- are responsible for more human suffering, oppression, and servitude than any other forms of government

# **Socialist governments ...**

- are responsible for more human suffering, oppression, and servitude than any other forms of government in modern history.

# **Socialist governments ...**

- are responsible for more human suffering, oppression, and servitude than any other forms of government in modern history.
- **always fail**

# **Socialist governments ...**

- are responsible for more human suffering, oppression, and servitude than any other forms of government in modern history.
- always fail to deliver

# **Socialist governments ...**

- are responsible for more human suffering, oppression, and servitude than any other forms of government in modern history.
- always fail to deliver lasting freedom,

# **Socialist governments ...**

- are responsible for more human suffering, oppression, and servitude than any other forms of government in modern history.
- always fail to deliver lasting freedom, sustainable prosperity,

# **Socialist governments ...**

- are responsible for more human suffering, oppression, and servitude than any other forms of government in modern history.
- always fail to deliver lasting freedom, sustainable prosperity, and universal happiness

# **Socialist governments ...**

- are responsible for more human suffering, oppression, and servitude than any other forms of government in modern history.
- always fail to deliver lasting freedom, sustainable prosperity, and universal happiness **that they promise.**

# Socialist governments ...

- are responsible for more human suffering, oppression, and servitude than any other forms of government in modern history.
- always fail to deliver lasting freedom, sustainable prosperity, and universal happiness that they promise.

# Socialist governments ...

- are responsible for more human suffering, oppression, and servitude than any other forms of government in modern history.
- always fail to deliver lasting freedom, sustainable prosperity, and universal happiness that they promise.

and then they deceitfully claim that it was not socialism because it did not deliver!

# **Socialist governments ...**

- are responsible for more human suffering, oppression, and servitude than any other forms of government in modern history.
- always fail to deliver lasting freedom, sustainable prosperity, and universal happiness that they promise.
- are extremely difficult to abolish.

# Socialist governments ...

- are responsible for more human suffering, oppression, and servitude than any other forms of government in modern history.
- always fail to deliver lasting freedom, sustainable prosperity, and universal happiness that they promise.
- are extremely difficult to abolish.

**Socialism is a trap**

**Socialism is a trap  
easy to fall into**

**Socialism is a trap  
easy to fall into  
but hard to  
break out from.**

**Socialism is**

**Socialism is a  
transitional state**

**Socialism is a  
transitional state  
towards permanent  
totalitarianism**

**Socialism is a  
transitional state  
towards permanent  
totalitarianism (like  
Communism).**

**Socialism is**

**Socialism is  
cancer**

**Socialism is  
cancer  
on humanity.**

**Take a word for it  
from someone who  
experienced the  
“blessings” of the  
socialist “paradise”.**

**Now, it appears that  
it **metastasized** from  
the SU to the US.**
